SCINET?

## WHAT IS SCINET?

- Built to support SC – the worlds largest HPC and supercomputing conference
- Network allows the demonstration of HPC applications and experiments from across the globe on the conference floor
- Booths may request (multiple) connections at 1, 10 or 100Gbps
- WAN circuits are built to the event from around the US
- R&E networks enable connections to the rest of the world

● CenturyLink™

● INTERNET

● ESnet  
ENERGY SCIENCES NETWORK

SCinet delivers  
the World to Austin

for  SC15  
Austin TX | hpc transforms.

## FACTS & FIGURES

- Total bandwidth delivered: 1.63 Tbps
- 143 km of fibre deployed on exhibit floor
- Over USD\$22 million in loaned equipment
- Over 130 international volunteers from over 15 countries
- 337 SCinet wireless access points configured
- 7 Distributed NOCs (DNOC) on exhibit floor
- 39 managed and 73 unmanaged switches

## TEAMS

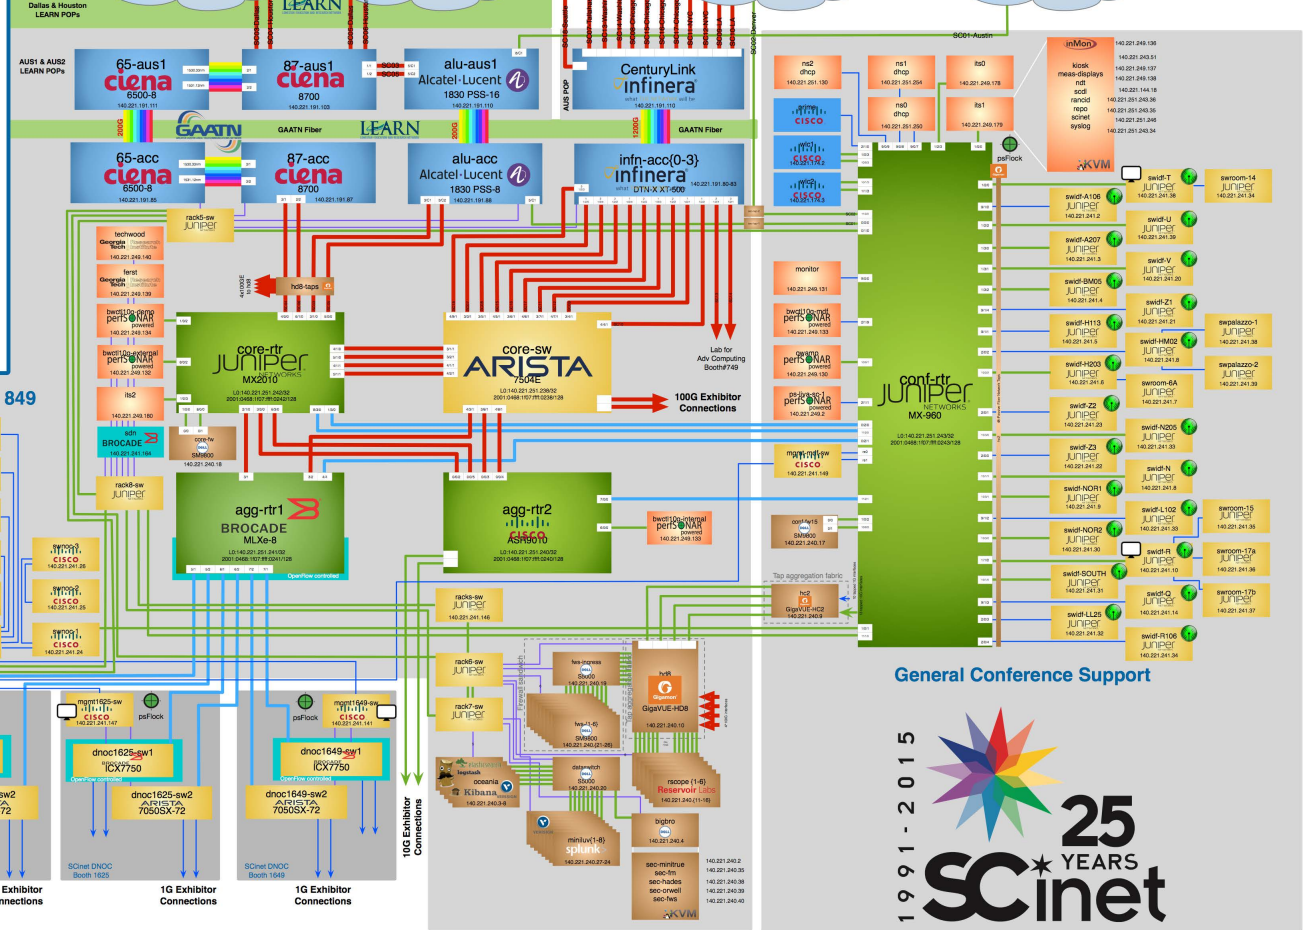

- Architecture
- Commodity
- Communications
- Fiber
- Helpdesk
- Interconnect
- IT
- Logistics
- Management
- Measurement
- Network Security
- Security
- Power
- Routing
- WAN
- Wireless

WHAT?

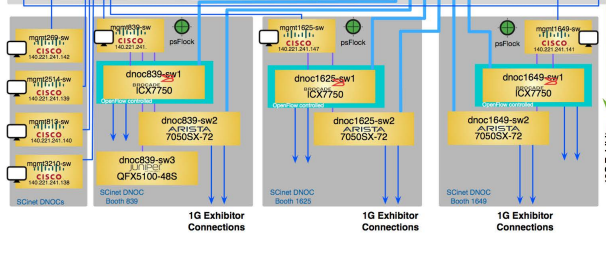

**Network Architecture**  
**Vol.2**  
**Linda Winkler**  
**Nov. 15-20, 2015**

- 1000-TX
- 1 Gigabit Ethernet
- 10 Gigabit Ethernet
- 40 Gigabit Ethernet
- 100 Gigabit Ethernet
- Dense Wave Division Multiplexing
- Wi-Fi Access Point
- Digital Signs

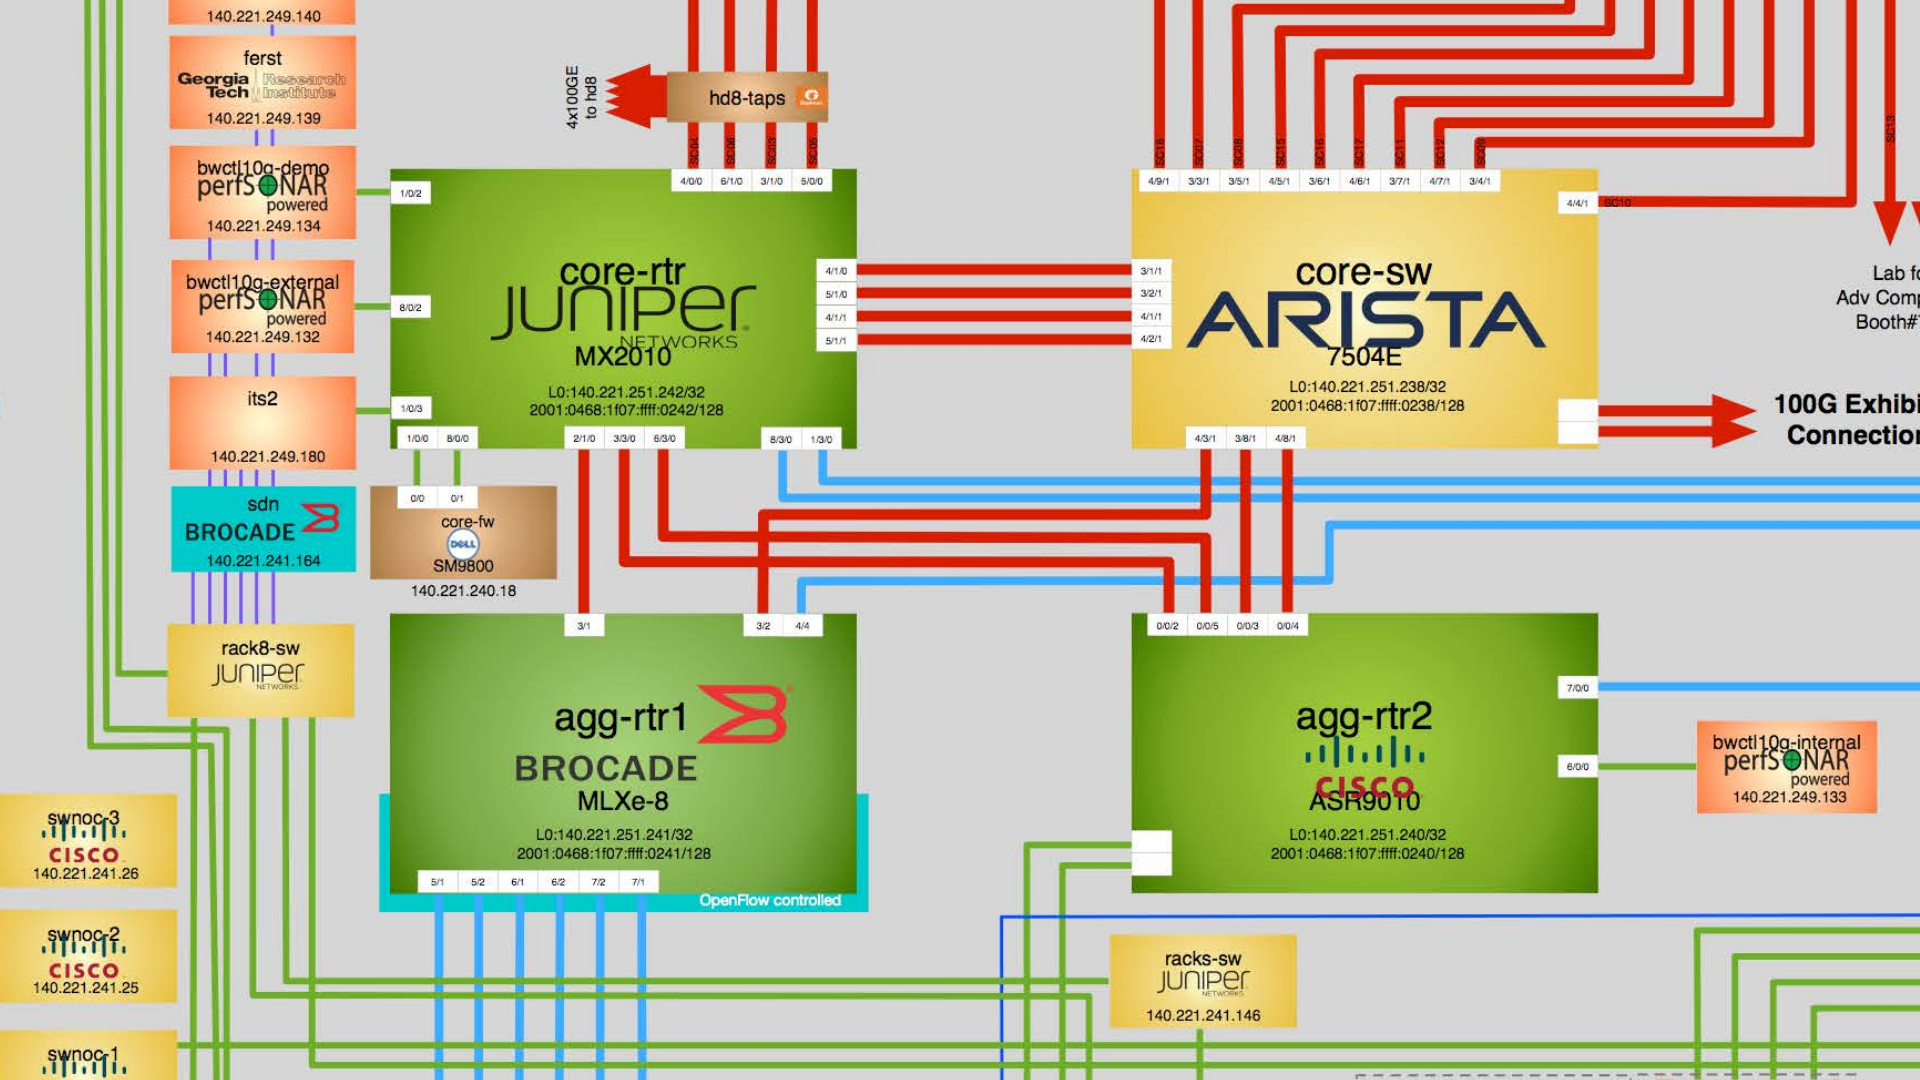

**SCinet NOC Booth 849**

WHY?

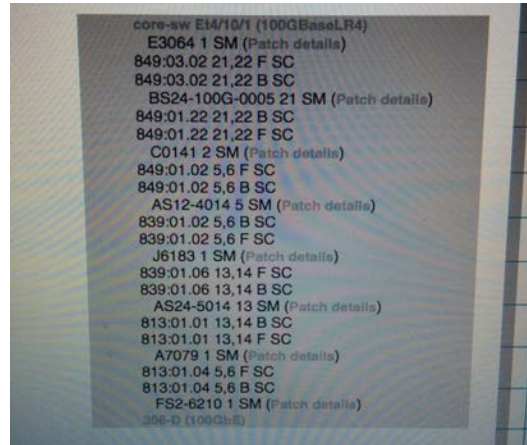

# SCINET

## WHY?

- Not just about supporting the exhibitors....
- Research & experimentation
- Vendor showcase
- Training
- Collaboration
- Profile

## R&D & TRAINING

- SC15 marked the first deployment of SDN in SCinet
  - 50% of 1G connections via switches controlled by OpenFlow
  - Brocade ICX switches with OpenDaylight controller
- Working alongside vendor SE's for multiple weeks on equipment you've never used
- Brand new equipment – Infinera and Arista QSFP28 deployment for SC15

## THANKS

- Linda Winkler, David Wheeler – diagrams / slides
- Conan, JP and the other Routerheads
- SCinet & SC teams
- REANNZ!
